

EC Gas Sensor Upgrade Notice

As consistently underscored, our top priority is customer satisfaction. SemeaTech remains dedicated to enhancing its products continually, aligning with customer feedback and experiences in the field. The following list highlights the upgraded electrochemical gas sensors, with key performance improvements detailed in the accompanying table. Certain older versions have been phased out, while others remain available to accommodate customers still utilizing them. We strongly recommend transitioning to the new versions to enhance your product performance.

| Old Version | | Upgraded Version | | Detail Changes | Notes |
|-------------|--------------|------------------|--------------|--|--|
| Sensor | PN | Sensor | PN | Detail Changes | Notes |
| | | | | T90: from 45 s to 15 s | Old version discontinued |
| 4SO2-5 | 056-0400-000 | 4SO2-5S | 056-040A-000 | Resolution: from 0.05 ppm to 0.01 ppm | |
| | | | | Temperature range: from (-20°C~50°C) to (-40°C~50°C) | |
| | | | | Temperature curve: the curve of -40°C~ -20°C is a new | |
| | | | | expansion and the curve of -20°C ~ 50°C remains unchanged. | |
| | 056-0000-000 | 4SO2-20S | 056-000A-000 | T90: from 45 s to 15 s | Old version discontinued |
| 4SO2-20 | | | | Resolution: from 0.1 ppm to 0.01 ppm | |
| | | | | Temperature range: from (-20°C~50°C) to (-40°C~50°C) | |
| | | | | Temperature curve: the curve of -40°C~ -20°C is a new | |
| | | | | expansion and the curve of -20°C ~ 50°C remains unchanged. | |
| 4SO2-100 | | | 056-050A-000 | T90: from 45 s to 15 s | 1 |
| | | 4SO2- | | Resolution: from 0.5 ppm to 0.015 ppm | |
| | 056-0500-000 | 100S | | Temperature range: from (-20°C~50°C) to (-40°C~50°C) | Old version discontinued |
| | | | | Temperature curve: the curve of -40°C~ -20°C is a new | |
| | | | | expansion and the curve of -20°C ~ 50°C remains unchanged. | |
| | | 4802- | 050 0404 000 | T90: from 60 s to 35 s | Old version discontinued |
| 4SO2-2000 | 056-0100-000 | | | Resolution: from 5 ppm to 0.5 ppm | |
| 4502-2000 | 056-0100-000 | 2000S | 056-010A-000 | Temperature range: from (-20°C~50°C) to (-40°C~50°C) | |
| | | | | Temperature curve: the curve of -40°C~ -20°C is a new | |
| | 056-0600-000 | 7SO2-5S | 056-060A-000 | expansion and the curve of -20°C ~ 50°C remains unchanged. T90: from 70 s to 20 s | Old version discontinued |
| 7SO2-5 | | | | | |
| | 056-0700-000 | 7SO2-20S | 056-070A-000 | Resolution: from 0.08 ppm to 0.04 ppm | Old version discontinued |
| 7SO2-20 | | | | T90: from 45 s to 20 s Resolution: from 0.1 ppm to 0.04 ppm | |
| | | 7SO2- 100S | 056-020A-000 | | Old version discontinued |
| 7SO2-100 | 056-0200-000 | | | T90: from 70 s to 20 s | |
| | | 1003 | | Resolution: from 0.2 ppm to 0.05 ppm | <u> </u> |
| | 054-0000-000 | 4H2-1000S | 054-000A-000 | T90: from 70 s to 25 s | Old version is still available but needs to be specified on purchase order |
| 4H2-1000 | | | | Resolution: from 5 ppm to 0.5 ppm | |
| | | | | Temperature range: from (-20°C~50°C) to (-40°C~50°C) | |
| | | | | Temperature curve: new | |
| | | | | Cross sensitivity: new | |
| | 054-0400-000 | 4H2-2000S | 054-040A-000 | T90: from 70 s to 25 s | Old version is still available but needs to be specified on purchase order |
| | | | | Resolution: from 5 ppm to 0.8 ppm | |
| 4H2-2000 | | | | Temperature range: from (-20°C~50°C) to (-40°C~50°C) | |
| | | | | Temperature curve: new | |
| | | | | Cross sensitivity: new | |
| 4H2-40000 | 054-0100-000 | 4H2- 40000A | 054-S200-000 | Resolution: from 50 ppm to 1 ppm | Old version is still available but needs to be specified on purchase order |
| | | | | Temperature curve: new | |
| | | | | Cross sensitivity: new, eliminate over 99% of interference | |
| | | | | from carbon monoxide | |
